My Second Year at BOPS

P2 Eden

Hi! I'm Eden. I am 8 years old. I am in P2. My favourite colour is black. My favourite subject is mathematics because I like times, plus, minus, equation and equal. I am 12cm taller than last year. What I like about in school is there're so many activities. My best friend is Marvis, why? Because we play together in recess. The best classroom activity is making food. The best outdoor activity is playing football in the playground. The funniest moment in school is day camp.

Junior Group 1st runner up

My Second Year at BOPS

P2 Chandler

I am Chandler. I am in P2. I am 7 years old. My favourite subject is English and VA because it is easy and fun. The best outdoor activity is day camp because we were playing fun games with the P1s. I became taller and smarter. I like my school because it is caring and fun. The best classroom activity is Kahoot and Epic. The most memorable activity is when we had the beach run. My friend is Allen and we played hide and seek together.

Poem of BOPS

P1 Aiden Lee

Bui O School a gem in HK society
Oasis in city with buffalo communities
Away from city's hustle and bustle activities
Children gather and learn in diversity

Teachers and students dedicate to excellency
Countries and ethnicities in one family
East and West meet and grow in harmony
Joy and laughters ring Lantau community

My 4th Year at BOPS

By Cerys W. James

I love this school so much. It is really fun and interesting going to school. There are also three things I like about the school.

First, I love the playground, it is big and nice that I can run and play ball games there during recess.

Second, I like the Butterfly Garden. There are many beautiful, colourful flowers in it. Sometimes I visit the fish there too and see if they are growing.

Third, I like the new staff room. It is modern and now all teachers can be found there. All in one!

However... Here is what I do not like about the school.

First, I do not like when they give out homework. Sometimes I just want to enjoy myself more at home, to relax, play music and make crafts.

Second, I do not like when group B classmates do not do their Chinese homework because I am the subject leader.

Third, I do not like when some schoolmates kick the ball crazily in the playground. It may hurt someone.

By the way, something cool happened! The school announced that we are going to visit Disneyland and I am really excited about that.

Middle Group 2nd Runner-up

My Third Year in School

P3 Eva Martin

In my P3 year as soon as I got into the school, I was very excited because I had heard about the new school uniform modeling and they asked me if I wanted to be in it. My favourite uniform was the P.E uniform. It was very comfortable. This year I really did not like Zoom. It makes me very bored. It's hard to concentrate on Zoom calls so I was so pleased to be going back to school. My favourite teachers are Mr Perry and Ms Liu. They are both my class teachers. Ms Liu teaches Chinese, GS and music. Mr Perry teaches us English. Their classes are very very fun. And that was about my P3 year.

The Cool Two Years of School

By Wong Heung Sum

I am Summer Wong. I have been in Bui O Public School for two years. I enjoyed it most of the time.

This year, we have a new principal and his name is Mr Pun. He is a friendly person. I always see him standing by the gate to greet us in the morning.

Our classroom has a new e-whiteboard. It is like a big television and computer screen. We can do many things with it.

Our school has a lot of trips. We visited Disneyland and H2O Water Centre recently. It was fun and we learnt a lot.

In this school, we do not have a lot of homework. During break time, we can all go to the basketball court or the butterfly garden.

In my previous school, it was a bit hard. We usually had twelve assignments each day. A lot of my friends are still at that school and I miss them sometimes.

See you later, my third year of Bui O Public School.

Middle Group 1st Runner-up

My fourth year at BOPS

By Pang Mei Chun

I have been in Bui O Public School for four years. This year was the craziest year I have ever had. Let me tell you why.

This year, we did not have a full year of face-to-face school. For more than a month, we stayed at home and had online lessons.

The craziest thing was that my term two books were all delivered to my home and we started our term online. I also made some new friends online but we could not meet one another face to face. We studied together online and chatted online. After the suspension, finally we could meet at school. My friends are all funny, kind and polite and that is why we became very good friends.

Anyway, I hope the pandemic will pass soon and I can go to school normally and I can see my teachers and classmates every day.

My 4th school year at BOPS

By Maegan A. Alarcon

Dear BOPS,

Thank you for being the best school year ever. I used to hate football until I started playing it here. In my second year, I joined the school football team. Since then, I have been practising football every morning. Although we did not have that many football matches this year, I still had a lot of fun.

I enjoyed it so much this school year. My friends and I like to play at the park near the English Room. Our favourite thing there is the slide. We would play on it every recess unless we had prefect duty. My favourite subject is I.T. because we get to use the computers. It was really fun to learn to use Scratch Jr.

My second favourite subject is probably Chinese. I like learning Chinese because it is fun to learn a second language. I do not like PSHE lessons much because I do not enjoy the activities there.

Next year, I am going to be in P5. I hope we can have more time staying at school!

Love,

Maegan

My Sixth Years at BOPS

P6 Renee

What happened this year is unforgettable! Due to Covid we had to start online zoom classes, that was very confusing and frustrating but when I got a hang of it, it wasn't that hard, before 2002 my class and I had the best Christmas class party ever because we got to open mystery presents and eat delicious foods, the school Christmas party was fun too! I performed wushu and 2 singing performances.

Before I became P.6 I was so scared because that means my class and I needed to be the role model of P.1 to P.5 and that is a lot of pressure for me! The best thing of being P.6 is I can control the other younger classes by teaching them to be more respectful to the teachers, and being P.6 means I can understand the frustrations of the teachers go through.

The best memories of being P.6 is my class party because all of us got to know each other more, we were singing and dancing to the loud music together.

There is 1 month till I graduate and I can't imagine leaving this school I am very overwhelmed, throughout these years has been a whole roller-coaster there was some ups and downs but I got through it, I'm gonna miss my teachers and friends, it's been 6 whole years with them, I'm hoping that I can still get in touch with my friends and teachers.

I think I've changed a lot with my discipline and respects to my teachers, I broke my English barrier. I learned many new different English words from this school and from my friends.

BUI O THE SCHOOL YOU MAKE MEMORIES

P5 Charlie

B.O.P.S is an interesting school with lots of amazing cultures, there are so many good things students are very inclusive with each other and cooperative with each other. Everywhere I go, I see great friendship being fostered, this makes me feel warm inside. What I love most about this school is that you will always be treated well like everybody else. It doesn't matter if you might be different because if you find great friends in this school, you will never lose them. Even if you are in Hong Kong and your friends are in Australia, you'll never lose them no matter what. You will have ups and downs but if you make friends in this school that's all that matters.

A letter to Bui O Public School

P5 Jacob

Dear Bui O Public School, I would like to express my gratitude to the school. The school is the best in my opinion. The reason why is because it has a small community and it's really to make friends. There are nice teachers that are strict too. It's also in a rural area, meaning it's not crowded. We've got fun activities too that involve teaching animals and in the school there is also an Educational Day Camp, adventure ship, school picnic and we can visit a space museum. We have well explained and challenging but fun homework. There is also a fifteen minute recess which is good because we can have fun after class and we won't feel negative or feeling

discouraged. No school is as good as ours, that's why others should join too.

Senior Group 1st Runner Up

P6 Kristine

Bui O Public School had changed my life. I've seen many new friends and teachers and new friendships being made every day. BOPS also has many children from different countries such as the Philippines and Nepali, Russia and many more but mostly china. In Bui O we have unique activities like beach runs mostly every year and we also have a cultural week where we have a fashion competition and dress up as our Cultural clothing. We also talk about the food and place but we mostly talk about the food. Its great to learn about many different cultures events.

The teachers here are caring and have lots of experience. The teachers here put learning games for students to have fun and learn in the same time. Most teachers forget their students name but at BOPS teachers know their students name and they see them as family or friends and students are happy to know that their teachers will always help them.

Studies at BOPS are Caring, kind and all are treated the same. In BOPS, there are prefects that will take care of the younger students. The prefects here will take care of friends and students some of the younger students always look up to them.

Senior Group 1st Runner Up

P6 Sophia

To my beloved Bui O School, The place that I considered my home for the last six years. The place that molded me as a person and as a student. This is where I learned my favorite sports Which is football! We have brought home big awards and trophies with the cheering and support of our parents, teachers and friends. I made lots of friends of Bui O school. Some were here to stay and others were only here for a breif moment. As the whole world struggles with covid-19 pandemic. Some friends left with their families. It made me sad because I know that I would miss all the things that we shared together. Be it Silly things, laughter or tears! One thing I know though is that I want what's best for them. That friendship is about making memories together. As my time in Bui O School is nearing to an end I can't help but think about all the teachers that taught me. I don't have any words on how high I regard my teachers. I see them as my second parents and mentor. They have encouraged and motivated me a to be good in whatever I do. They have made me the confident person that I am now. That school is fun and exciting place to be in. That's how my teachers made me feel the entire time that I was at Bui O School. Thank you so much Bui O School for making my time here a remarkable one! Keep doing well what you've been doing well, that is building little child's mind to be a great one!

Senior Group Champion

P5 Myra

Dear Bui O Public School, I am writing a letter of appreciation to express my thankfulness towards my school. In my opinion, Bui O School is the best village in the whole of Hong Kong!

I strongly believe that Bui O has a close community because teachers remember every student names. In other schools, most teachers can't remember students names because there are hundreds of students attending the school.

The second reason that I love this school is we have lots of nationalities. I have friends from Cameroon, France, Phillipines, Nepal and as well as other countries. It's good because we can learn about different countries and cultures.

The last reason that Bui O school is special is because it's in a rural area. It's away from the city and not surrounded by cars, buses, and trucks. From the school, we can see trees, animals, a beach and wetland! Finally, I would like to thank everyone that makes Bui O special.
